Interdisciplinary Graduate Program in Immunology
Immunology First-year Student Rotation Presentations

“TRAF5, What Is Next?”
Qiong He

“Effects Of Dual Pulmonary Virus Infection On Disease Severity”
Emily Hemann

“TLR2 Serves As A Costimulatory Receptor During Signal Transduction In Activation Of T Cells”
Cory Knudson

“The Justy Mutation Boosts Expression Of Inflammatory Cytokine Genes Following TLR 9 Stimulation In Murine Dendritic Cells”
Corey Parlet

“Lung Metastasis In Renal Cell Carcinoma”
Timothy Rosean

“GA101-Coated Target Cells Are More Effective Than Rituximab-Coated Target Cells At Activating NK Cells When Complement Is Present”
Britnie Spaunhorst

“Introducing IL-10 And IL-27 In Vivo Using Recombinant MHV”
Kayla Weiss

December 2, 2009
Wednesday, 3:30 – 5:00 PM
NOTE: Starting at 3:30 PM
283 EMRB
